

Name: _____ Date: _____

Appendix C: ESTERS, AMINES, AMIDES Jigsaw Activity Handout:

You will work in groups of three; each student must have a different class of organic compound.

ESTERS, AMINES, AMIDES Jigsaw Activity Handout:	
My Structure:	
IUPAC Name:	
Partner 1 Structure:	Partner 2 Structure:
IUPAC Name:	IUPAC Name:
What type of organic compound is this?	What type of organic compound is this?
Compare and contrast the structures drawn by your two partners:	
Name one difference and one similarity between the structure of these two compounds:	
Name one difference and one similarity between the names of these two compounds:	
Name one difference and one similarity between the physical properties of these two compounds:
